                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |     |           |             |                |                | Heated Area: 2209 |      | HX Base Yr 2024 |      |      |        |
| <p>The site map shows a property layout with four distinct areas labeled in blue: BAS 2023, FSP 2023, FGR 2023, and FOP 2023. The areas are defined by black lines representing boundaries and dimensions. The overall shape is roughly rectangular with several internal divisions. The dimensions are as follows: Top boundary: 18, 20, 14. Right boundary: 37, 20, 11. Bottom boundary: 13, 4, 8. Left boundary: 63. Internal dimensions: FSP 2023 (top right) has a width of 20 and a height of 10. FGR 2023 (middle right) has a width of 29 and a height of 16. FOP 2023 (bottom left) has a width of 6 and a height of 3. The area between FSP and FGR has a width of 18 and a height of 2.9. The area between FGR and FOP has a width of 20 and a height of 2. The area between FOP and the left boundary has a width of 13 and a height of 4. The area between FOP and the bottom boundary has a width of 8 and a height of 4. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10. The area between FOP and the left boundary has a width of 63 and a height of 6. The area between FOP and the bottom boundary has a width of 4 and a height of 8. The area between FOP and the right boundary has a width of 11 and a height of 2. The area between FOP and the top boundary has a width of 18 and a height of 10.
