                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |     | 100% - 2024 |             |                |                | Heated Area: 1915 |      |      | HX Base Yr 2024 |       |        |
| <p>The floor plan shows a large rectangular lot with several internal divisions. The areas are labeled as follows: PTO 2019 (top left), FOP 2004 (middle left), BAS 2004 (center), FOP 2004 (bottom left), and FGR 2004 (bottom right). Dimensions are provided for each area and the overall lot. The overall lot dimensions are 38 (left) and 27 (top). The PTO 2019 area is 11 (left) and 11 (top). The FOP 2004 area is 14 (top) and 10 (right). The BAS 2004 area is 27 (top) and 23 (right). The FOP 2004 area is 10 (left) and 10 (bottom). The FGR 2004 area is 20 (top) and 20 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom). The FOP 2004 area is 11 (left) and 11 (bottom). The FGR 2004 area is 11 (left) and 11 (bottom).
